

Recommended Online Stores

Store:	Orbit DVD
Why\Problem Solved:	Great customer service , great stock and they have an awesome Brick and Mortar location in Asheville I try to visit once a year or so. They also don't oversell their pre-sales like Amazon and other big box stores do. I have never been let down on getting my must have titles from Orbit.

Tips\Screenshot:	• Be mindful of their pre-order shipping policies. If you order multiple pre-orders in a purchase it won't ship until everything has come in. If you want a title asap pre-order it by itself. image.png

Store:	Diabolik DVD
Why\Problem Solved:	Another great mom and pops operation. Fast shipping and great customer service.

Store:	The Movie Room
Why\Problem Solved:	Another go to but I don't order from them as much since they are west coast. They have been a solid back up for me when I'm having trouble finding a title. A great choice if you're on the West Coast.
