

3d Printables

3D Printing is another of my hobbies and I'm often able to combine the two by printing things that complement my physical media collecting. Here are some of the more useful prints I've found and use.

Steel Book Wall Mounts:

Why\Problem Solved:

Cheap easy way to display some of your favorite steelbooks. Also fits Blurays with slipcovers well.

Link: <https://makerworld.com/en/models/736807-blu-ray-wall-mount?from=search#profileId-668861>

Tips:

- Prints great in standard pla
- Won't fit the Steelbook with a protective cover by default.

Blu Ray wall mount

Follow

Now Playing Stand:

Why\Problem Solved:

Fun way to display the movie you're currently watching and keep the case in a handy place to put away when finished.

Link: <https://makerworld.com/en/models/1207421-now-playing-vhs-movie-display-stand?from=search#profileId-1221518>

Tips:

- Prints in two pieces and utilizing AMS to get the multicolor Now Playing sign. Attach with crazy glue.
